P/N: ITSUPDATE

ITS600 PRO UPGRADE
Expand Diagnostic & Service Functions

- All System AutoSCAN & Diagnostics
- 20+ Service Functions
- Read/Clear All System Codes / View Live Data
- 1 Year of **FREE** Diagnostics Updates
- 1 Year of **FREE** Service Updates

Already Included with ITS600*
- Complete TPMS Functionality
- 4 Service Functions: OLS / BMS / SAS / EPB
- **FREE** Updates for the Life of the Tool for included TPMS & Service Functions

*ITS600 sold separately. ITS600 cannot revert back to original functionality after ITSUPDATE is applied. When the 1 free year of diagnostic and service updates expires, functions already downloaded to your ITS600 remain active, only access to new downlads will be unavailable. Secondary ITSUPDATE purchase and application will renew the software subscription and downloads will become accessible.

AUTEL®

AUTEL

20 SERVICE FUNCTIONS

Oil Reset
Reset maintenance reminder or service interval indicator

EPB - Electronic Parking Brake
Allows technicians to perform rear brake service on EPB equipped vehicles

BMS - Battery Management System
New battery registration on vehicles equipped with advanced electronic systems

SAS - Steering Angle Sensor
Allows technicians to perform Steering angle sensor & Zero point calibrations after alignment or service

Immo Keys - Immobilizer & Keys
Program new or additional ignition keys (conventional and proximity)

Brake Bleed
Automatic brake bleed feature for ABS control units

DPF - Diesel Particulate Filter
Force regeneration on active and passive diesel particulate filter systems

Injector
Perform fuel injector registration and coding on vehicles with advanced fuel management systems

Suspension
Suspension calibration for vehicles equipped with Air or Hydraulic systems fitted with ride level sensors

Throttle
Electronic Throttle Calibration and idle learn for vehicles equipped with "drive by wire" throttle bodies

Window / Door / Roof
Component activation and calibration for power door locks, windows and sun roof

Seats
Calibrate occupancy detection systems and seat weigh sensors

Odometer
Allows access to advanced settings in the Instrument Cluster Module such as distance unit

Language Change
Change the language displayed on various control systems including the driver information center

Headlamp
Calibration for adaptive headlight systems

CHG Tire Size
Change speedometer parameters to accommodate different wheel sizes while maintaining accuracy

TEC learn
Top Dead Center Offset Learn Procedure is required after Replacement of the PCM, fuel injection pump, crank position sensor or powertrain in many applications

Cylinder
Technicians can perform Cylinder Contribution test to aid in the diagnostic process (under development)

Trans Adaption
Perform transmission shift adaptation after installing a rebuilt transmission or transmission control module

Airbag Reset
Reset airbag system and indicator on vehicles that do not require SRS Module reprogramming

ALL SYSTEM AUTO-SCAN
The TS608 can retrieve diagnostic trouble codes and live date from ALL vehicle modules via Auto-Scan. Detailed vehicle scan reports can be printed wirelessly and customized to meet the needs of customers.

AUTO-VIN 2006+
The MaxiTPMS diagnostic system features Auto-VIN functionality to identify vehicle year, make and model automatically.
